

**United States Fittings** is a manufacturer of welded and fabricated pipe fittings. We specialize in products manufactured from Carbon Steel, Stainless Steel, Aluminum, Copper, Nickel, Duplex, and other materials. Our products are sold through recognized pipe, valve, and fittings distributors throughout North America.

All items are quoted promptly and confirmed in writing with drawings and support information available upon request.

Please consider United States Fittings, Inc. as your source for high quality welded and fabricated pipe fittings. All items are carried in our Twinsburg, Ohio manufacturing facility.
